## ABOUT US

### • IMI Defense

IMI Defense was established with one mission, to design, manufacture, and supply the highest-quality and most innovative firearm products and accessories to the military, law enforcement, and civilian communities.

Ground-breaking polymer holsters and polymer magazine pouches are hallmarks of the IMI Defense line of products.

With the expertise of a team of the world's foremost engineers, military/law enforcement experts, and firearms production specialists, IMI Defense products integrate years of military "know-how" with battle-proven, durable and ergonomic materials.

Developed in Israel, each IMI Defense product has met the most demanding needs of the military and defense community, and has won acclaim among the elite units of both the IDF and Israely Police Forces.

We are proud that today IMI Defense products are used by militaries, law enforcement agencies and civilians worldwide.

IMI Defense products are The ultimate choice.

## IMI DEFENSE PRODUCT LINE

### • ROTO\RETENTION HOLSTERS

The cornerstone of IMI DEFENSE'S product line! This revolutionary patented design presents an ergonomic, modular and mission versatile holster in a structurally strong package made of high quality durable polymer. Combined with our wide variety of mounting platforms this holster is like nothing else.

#### Features:

- Comfortable contoured fit.
- Retention with zero time to disengage.
- Retention button sits at the ready, where your trigger finger normally slides.
- Button location away from trigger prevents misfire at weapon draw.
- Rotates 360° for every application.
- Connects to all IMI DEFENSE Platforms.
- Made of highly durable polymer.
- Adjusts with a simple allen key.
- Detachable single magazine pouch, Patent Pending (Not available in all models).
- Protective sight channel.

### • LEVEL-3 RETENTION HOLSTERS

The IMI DEFENSE Level 3 holster is a high-end product for Police, Military and other armed forces which demand the additional security for their holstered handguns.

This system offers a secure dual safety retention mechanism with an easy combination of thumb and finger press to draw the firearm at minimal time.

The level 3 protection is achieved by adding a contoured cap above the pistol along with the proven IMI Defense trigger guard retention system.

The IMI Defense Level 3 Holster offers the same versatility and user modularity as our standard Roto/Retention holsters due to our unique mounting system, allowing connection with any of our platforms and determining rotation angle btw. 0-360°

#### Features:

- Comfortable contoured fit
- Dual safety Retention system with zero time to disengage
- Fully adjustable for cant
- Rotates 360° for every application
- Connects to all IMI DEFENSE Platform
- Made of highly durable polymer
- Adjusts with simple allen key
- Right handed Polymer Holster
- Protective sight channel
- Available in Black\OD-Green\Desert-Tan

*Level 3 Roto/Retention Paddle Holster  
Glock 17/22/31*

### • ONE PIECE HOLSTERS

#### Features:

- This unique design creates a One-Piece Polymer Holster with no rivets or other connections, which means no weak areas to break or loosen and no slapping effect while running or being active.
- IMI DEFENSE One Piece holsters holds closer to the body than any other paddle holster on the market.
- 15° forward cant FBI style.

## IMI DEFENSE PRODUCT LINE

### • MOUNTING PLATFORMS

IMI DEFENSE offers a wide variety of mounting platforms to fit the different missions and challenges our users may encounter. Our unique 360° mounting system completes the revolutionary retention system to give you maximal modularity and user versatility with unbeatable durability and comfort.

#### TACTICAL DROP-LEG PLATFORM

The Tactical Drop Leg Holster offers the versatility of a modular platform that is able to utilize existing IMI holsters and pouches.

##### Features:

- Polymer main panel offers breathability and conformability to the user's upper leg dimension.
- Fully adjustable straps.
- Holsters and equipment pouches can be removed and installed while being worn thanks to IMI's unique mounting system.

Drop-Leg kit H&K USP FS

#### MOLLE ATTACHMENT

##### Features:

- Easily attaches IMI Defense holsters and pouches to body armor, load bearing equipment, vests, tactical bags, pouches, and more.
- No weaving necessary.
- Allows to quickly and easily set up gear before each mission and also during low light conditions or maneuvers without removing the device from the equipment.

#### BELT ATTACHMENTS

##### Features:

- Compatible with all IMI Defense Polymer Holster Retention Systems
- Belt Loop is fully adjustable to fit a 1" to 2" belt with adjustable slider for belt width.
- Belt Clip offers an open loop for quick engagement/disengagement with an adjustable ratchet slider for belt width.
- Low Ride platform offers 3 height levels to install your holster while maintaining 360° rotation ability.
- The Low Ride platform gives the option of the IMI DEFENSE retention system in a duty style holster, as part of your duty rig, or as a belt mounted holster for tactical use.

### • MAGAZINE POUCHES

##### Features:

- Connects to all IMI DEFENSE Platforms.
- Single and Double magazine pouches.
- Single/Double stack magazine.
- 360° Rotation ability.
- Tension screw.
- Single magazine pouch also fits holster rail.

#### IMI-Z2110 – ROTO PICATINNY RAIL (RPR)

The IMI DEFENSE RPR is a 5 notch picatinny rail piece that connects with any of our platforms. The rotation axis is spring loaded and functions as a ratchet mechanism that allows to determine the angle (0-360°) without the use of any tools. This device gives the tactical user a fine solution for tactical equipment storage, light mounting for free hands and more. Supplied as standard on the IMI-Z2100 Belt loop.

##### Features:

- 5 Notch picatinny rail
- Spring loaded rotation axis for ratchet function.
- Rotates 360° for every application
- Great solution for Soldiers and Duty Officers as a hands free tactical light mounting
- Connects to all IMI DEFENSE Platforms.
- Made of highly durable polymer
- Available in Black\OD-Green\Desert-Tan

### • DESIGNATED POUCHES

##### Features:

- Internal Lever applies positive tension to keep elements in place, simply pull to draw.
- Rotates 360° for every application.
- Connects to all IMI DEFENSE Platforms.
- Made of a durable, polymer construction.
- Adjusts with simple allen key.

### • TACTICAL EQUIPMENT

#### IMI-Z3250 - TACTICAL LIGHT & LASER

An the ideal integrated solution for weapons illumination and aiming. A high output LED provides a blinding white light, with a strobe function optimized for disorientation. The high intensity red laser works alone or in combination with the white light to provide pinpoint accuracy. Intuitive push button operation allows for any combination of light and laser function. Magnetic switching assures optimum performance and durability under the most demanding conditions. Digital integrated circuits provide a highly efficient power management and optimized battery life. Ergonomic design and advanced materials assure light weight and a compact form factor. Quick release latching system that can be operated with one hand and tightened for added security without the use of tools. The unit attaches to the rails, ensuring compatibility with a wide range of platforms.

##### Features:

- Quick release latching system mounts to M1913 and similar type rails
- On-board tool for laser windage & elevation Adjustment
- 4MM glass lens
- Advanced polymer housing, with an anodized aluminum bezel
- Integrated circuits provide efficient power management
- High intensity red laser works alone or in combination with the white light
- 80 minutes peak battery life, using (1) CR123A Lithium Battery
- High output LED (\*130 Lumens peak) provides a blinding white light, with a strobe function\*based on LED manufacturers specifications
- Great for civilians, off duty officers & military personnel
- Multiple modes of operation – steady/momentary light/strobe, laser (with light or independent).
- Convenient left & right rear-mounted momentary and steady on/off buttons for light modes.
- Independent on/off for laser unit.
- Self-storing Allen key for wind age & elevation adjustment.
- Quick release rail attachment.

#### IMI-Z3300 - TACTICAL LIGHT

The ideal integrated solution for weapons illumination. A high output LED provides a blinding white light. Magnetic switching assures optimum performance and durability under the most demanding conditions. Digital integrated circuits provide a highly efficient power management and optimized battery life. Ergonomic design and advanced materials assure light weight and a compact form factor. IMI-Z3300 Flashlight features a quick release latching system that can be operated with one hand and tightened for added security without the use of tools. The unit attaches to the rails, ensuring compatibility with a wide range of platforms.

##### Features:

- Quick release latching system mounts to M1913 and similar type rails
- 4MM glass lens
- Advanced polymer housing, with an anodized aluminum bezel
- Integrated circuits provide efficient power management
- 80 minutes peak battery life, using (1) CR123A Lithium Battery
- High output LED (\*130 Lumens peak) provides a blinding white light.  
\*Output based on LED manufacturers specifications.
- Great for civilians, off duty officers & military personnel
- 2 modes of operation – permanent/momentary function.
- Convenient left & right rear-mounted momentary and steady on/off buttons for light modes.
- Quick release rail attachment.

#### IMI-Z3200 - TACTICAL DEFENSE LIGHT

The Tactical Defense Light is a versatile and powerful defensive light and strobe that emits in excess of 700 lumen\* of light. Handheld or easily mounted to an accessory rail, the Tactical Defense Light also features a fixed laser aiming module and a built-in power receptacle. The power receptacle can drive a variety of optional interchangeable digital accessories. The grip provides extra stability when mounted on a rifle and can act as a tactical fore grip.

##### Features:

- 700 Lumen\* LED light
- 3 function modes – steady light, strobe light, laser (with light or independent).
- Steady on/off & momentary on/off operation.
- Quick release rail attachment.
- (4) CR123 Lithium batteries.

\*Approximate lumen.

#### IMI-Z3400 - COMPACT PISTOL LASER

The IMI-Z3400 Compact Pistol Laser is a compact, lightweight rail mounted red laser used for targeting. The IMI-Z3400 integrates pinpoint accuracy and rapid target acquisition with intuitive operation in a form fitting package that weighs only 1.1 oz.

##### Features:

- 2 hours steady operation (approx.)
- Conveniently mounts to "SIG SAUER" and M1913 accessory rails
- Ambidextrous on / off switches
- Windage & elevation adjustments
- 3V CR1/3N Lithium Battery
- 2.0" L x 1.1" W x 0.9" H

## TACTICAL EQUIPMENT

### IMI-Z3100 – MINI RED DOT SIGHT

State of the art performance combined with a compact form factor makes the IMI-Z3100 Mini Red Dot Sight one of the hottest optics available. A versatile and lightweight solution for handgun, rifle and shotgun, the 3100's advanced design and robust construction ensures optimum performance in the most extreme conditions. The IMI-Z3100 features a parallax free 1X red dot with a 4 MOA reticle, coated glass lenses, a high strength extruded aluminum body with anodize coating, and mounts on M1913 / Weaver accessory rails. 11 daylight settings provide a visible aiming solution through a full range of light conditions. Power is supplied by one 3V CR2032 Lithium Battery, providing an average of 8000 hours of operation. With an overall length of under 2.5" and a weight of only 3.0 oz, you won't even know it's there until you need to use it. The IMI-Z3100 Mini Red Dot Sight is an innovative sighting solution that will enhance the abilities of any shooter

### IMI-Z3350 – X3 SCOPE

The IMI DEFENSE-Z3350 – X3 Illuminated reticle daytime scope sight is a lightweight solution for fast target acquisition. This rugged and reliable scope provides assured accuracy from a 3X fixed magnification reticle, graduated to 600 meters. It features three reticle modes – non-illuminated black, illuminated green and illuminated red, with each illuminated mode offering 5 brightness settings. Anodized aluminum construction ensures optimal performance in the most extreme conditions.

**Get one today at this introductory price!**

#### Features and Benefits:

- 3 reticle modes – non-illuminated black, illuminated green and illuminated red.
- 5 brightness settings for each illuminated mode (green and red)
- 3X fixed magnification ranging reticle
- Windage & elevation adjustments
- Anti-reflex & multilayer band pass optical coating
- M1913/Weaver rail mount
